

Corolar ConnectedCare App (C3A) is purpose built for healthcare providers on Microsoft Teams

Telehealth Secure messaging |
Care coordination & Collaboration

Seamless Integration With EHRs

- An HL7-FHIR compliant integration solution.
- Real-time clinical data integration to EHR systems like MEDITECH, EPIC, and Cerner using HL7/FHIR.
- Support for FHIR DSTU2 and STU3 versions via parsing of conformance statement.

Empower Clinicians With Easily Accessible Patient Data

- Create multiple patient lists within a single channel.
- View and sort information displayed about patients through configurable columns.
- Review and communicate urgent updates in real time from anywhere.
